Introduces functions used to modify text in Excel

Multi-Input Functions

More advanced functions that require more than one input

Formatting

Formatting

The addition of effects to an Excel document to provide visual instruction

Conditional Formatting

Apply a predetermined format based on specified rules

Charts & Tables

Column Chart

Create a Column chart to visually examine data

Line Chart

Create a Line chart and Sparklines to visually examine data

Pie Chart

Create a Pie chart to visually examine data

Tables

Explore the special functionality created when data is converted to a Table

Workbook Management

Freeze Panes

Enable a portion of the screen to stay visible at all times

Printing

Rules and strategies to make printing easy

Windows

Change how your worksheet displays data

Templates

Use prefabricated templates to build a spreadsheet

Excel Tricks

Fundamental keyboard shortcuts and other Excel tricks

End of Class Projects

Projects

End of class projects to review key concepts from the class
