

QuickBooks Level II for PC

This QuickBooks Level 2 class for the traditional PC Desktop software will not only cover such QuickBooks functions including running, customizing and memorizing reports, as well as memorizing individual transactions, batch invoicing customers, learning how to track your money spent that is earmarked as a reimbursement from your customer (AKA Job Costing). We will also customize a template (such as an invoice form) so that it can be used more for your specific purposes. Level 2 concentrates most

Group classes in NYC and on-site training is available for this course.
