

Tableau Bootcamp

Launch your career in data by diving into data visualization and Tableau in our Tableau Bootcamp. In this two-day, 14-hour bootcamp you'll go from learning about data to creating your own visualizations, constructing maps, and building interactive dashboards that you can share with your team.

Group classes in NYC and onsite training is available for this course. For more information, email nyc@careercenters.com or visit: <https://www.careercenters.com/courses/tableau-bootcamp>

Course Outline

This package includes these courses

- Tableau Level I (6 Hours)
- Tableau Level II (6 Hours)

Tableau Level I

Learn the art of data visualization in this Tableau course for beginners. By the end of this course, you'll be able to craft compelling stories by importing, computing, and manipulating data to create powerful data visualizations.

Tableau Level II

Master all things charts and maps in this advanced Tableau course for experienced users. You'll learn how to create maps, make dual axis charts, and use techniques to show changes in data over time. After taking this course, you'll be able to create a variety of charts and maps for different types of data.
