

UX & UI Design Certificate

The UX & UI Design Certificate includes classes in UX design, UI design (or Visual Design), Adobe XD, Photoshop, and Illustrator. You'll learn about the UX design process, UI design, creating prototypes and designs in Adobe XD, photo editing in Photoshop, vector drawing in Illustrator, and walk away with portfolio work to show to prospective employers.

Group classes in NYC and onsite training is available for this course. For more information, email nyc@careercenters.com or visit: <https://www.careercenters.com/certificates/ux-ui-design>

Course Outline

This package includes these courses

- Adobe XD Bootcamp (12 Hours)
- UX Design Bootcamp (30 Hours)
- Photoshop in a Day (6 Hours)
- Illustrator in a Day (6 Hours)
- Visual Design Portfolio Bootcamp (18 Hours)

Adobe XD Bootcamp

Create UI (user interface) and UX (user experience) designs for websites and apps
 Build layouts using text, images, layout grids, artboards, pages, and more
 Make responsive web designs that are optimized for mobile, tablet, and desktop screens
 Harness the power of symbols to create reusable design elements
 Optimize graphics for web and app design (create hi-res 2x graphics, SVG, JPEG, and PNG)
 Turn your designs into clickable prototypes that can be shared with others (using Adobe XD's built in features)
 Master symbols by learning how to override their content and styling to create powerful design systems
 Update symbols and styles across multiple Adobe XD files (or computers) using shared Libraries
 Learn useful plugins that can add amazing new features to Adobe XD and speed up your work

UX Design Bootcamp

Understand user experience design practices & process
 Gain new skills with user research, prototyping & testing
 Learn & analyze existing processes to build your own toolkit
 Create a design recommendation for a business owner/client
 Create and build a clickable prototype

Conduct user research & analyze results
Work out design solutions
Use Adobe XD to create clickable prototypes
Conduct user testing on your prototype to gain feedback

Photoshop in a Day

Learn to retouch photos and create graphics
Improve your images by adjusting color, contrast, and more
Learn how to prepare images for use on the web or in print

Illustrator in a Day

Create different types of graphics, such as a logo or icon
Use the Pen tool to create digital (vector) drawings Our tracing templates will make it easier for you to master this drawing tool
Learn about shapes, brushes, and paint tools

Visual Design Bootcamp

Learn to design websites for mobile, tablet, and desktop
Apply design principles such as color, layout, and typography to webpages
Learn about visual conventions, standards, and trends
